The 14 th European Congress of Psychology Milan, 7-10 July 2015 Bicocca Univerity

AIPPS information and diffusion experiences with Milan's Provveditorato, Universities for efficient diffusion of clinical sport psychology

AIPPS's staff

AIPPS methodology:

- defense mechanism observation during sport practise
- comunication dynamics observation through transactional analysis
- test of body scheme develpment through drawing and clinical test (tree test, TAT,...)

Value of AIPPS approach:

- non invasive methodology
- cross culural approach
- significant reduction of costs related to the desease

AIPPS is operative on training and on creating sinergy with important institution in Italy and aboard. (Universities, CONI, Soprt Federation, Hospitals) to train sport and social operators in according with AIPPS methodology

TR4ST EduLab for the new Ethical Sport Paper a EU Youth in Action Program project 2014

https://it-it.facebook.com/pages/TR4ST-The-Rules-for-Sport-Talents/392048680916792

AIPPS is operative into schools with partnership of Milan's Provveditorato to train teachers and students on a new welfare mode since 1988 with Desio's primary school in parternship with Milan's Provveditorato.

This clinical path contnued in early 2000 with "Little Prince project".

All our research and works were testified in EFPA Congresses since 2007

The latest experiences:

"Ettore Conti" Mian

2014-2015 t hird editon of Sport Clinical Pychology addressed to last year highscholl students of

"Ettore Conti" Mian

2014 "Discomfort and not comfort prevention in sport activities. Weel-being like sport goal"

workshop addressed to highschool teachers

http://www.istruzione.lombardia.gov.it/protlo7537 14/

2015 " Sport as tool to learn managing personal relationships" workshop addressed to teachers

http://www.istruzione.lombardia.it/protlo_6374_12_maggio_2015/

What last year highschool students understood about Sport Clinical Psychology workshop

AIPPS taught students using all the instruments that could stimulate their attention and creativity. One of these instruments was "Mind Mapping" bt Toni Buzan.

AIPPS choose this instrument because is funny an stimulant for brain, in particolar it activates right hemisphere.
